

# DIRECTIONS FOR MAKING SEED PACKETS TO PROMOTE THE HECK-JONES OFFERING

Use your filled packets as package tags during the holidays or as a companion to garden gifts, like pickles and jams, or even cookies and holiday goodies. Just three or four seed packets tied together with a pretty ribbon make a special gift.

1. Print on paper that is thin enough to fold.
2. Cut along the solid black line.
3. Fold along the dotted lines.
4. Fold over the large flap [A] first. Glue flap B down with rubber cement, then glue flap C. Let glue dry.
5. Fill the packet with seeds, either prepackaged or seeds from your own garden. If they are from your garden, remember to write information like variety, where it was grown, date it was collected, days to maturity, the grow zone and any helpful hints you can pass along.
6. Finally fold flap D down and glue.
